

PUBLIC DAILY LEDGER

SIXTH YEAR.

MAYSVILLE, KY., FRIDAY, OCTOBER 29, 1897.

ONE CENT.

LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can take over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements accepted for sale, no matter in what part of the paper they appear.

We Knew We Had a Good Thing in the Stock of Goods

We bought by electric light a few days since. There is no such clap-net clothing advertisements in vogue just now that we refrained from saying very much about the purchase. We simply called the public's attention to it by telling them to look at the display of these goods in our windows and note the prices on them. We knew we would sell some of them. The warm weather left a doubt as to selling a great many now. The doubt is dispelled. Since the day we opened this purchase and placed them in our windows our store has been crowded with customers anxious to secure these unheard-of bargains. We advise our friends who contemplate buying Fall Suits and Overcoats not to let this opportunity slip. It is only once in a long time that circumstances arise that enable merchants to secure first-class clothing that can be sold for less money than the cheaply gotten-up stuff that is flooding the market just now.

Our \$2, \$2.50 and \$3 Custom-Made

SHOES!

That we warrant to give satisfaction and cheerfully return the money if they do not have quickly sprung into favor. Out of town mail orders—and of which we receive many—receive prompt attention. Look at our show-windows; none like them in the state.

FOOTBALL.

Maysville's Team in Great Shape—How the Game is Played.

The dealer from whom the football uniforms were ordered has notified the management that the goods will be here tomorrow.

The team has been doing some good work and only needs a second eleven to play against to make their work very effective.

Any one who wishes to try for a position on the first eleven or who will play on the second eleven should see the Captain at once.

If the suits arrive in time Saturday, the boys will line up Saturday afternoon against a scrub eleven, which ought to make it interesting enough to those interested to come to the Park and witness this first practice game. No charge for admission.

The necessary amount to secure the suits has not been subscribed yet. Buy five tickets for a dollar when the paper is handed you. The team will do the rest.

Football has been a popular sport for so short a time that out of the many thousands that will witness the game this season there will be thousands that will not understand it. For the benefit of those who have never seen and who have never studied the game here are its rudimentary principles.

To begin with, each side has eleven men that "line up" or face one another in the center of the field.

These men are known as the right end and left end, right tackle and left tackle, right guard and left guard, center, quarter-back, right half-back and left half-back and full back.

The "line up" facing each other. The right end of one team faces the left end of the other. The seven men facing one another are "the line," or "the rushers," and the men behind the line are "the backs."

At each end of the field, which is 300x100 feet, is the goal line, in the center of which are the goal posts. These posts are twenty feet high and eighteen feet six inches apart, with a crossbar ten feet from the ground.

The object of the game is for each side to carry the ball over its opponents' goal line, or to kick the ball between the posts and over the crossbar.

The two captains toss for choice of ball and of goal. The winner takes the ball and the loser gets the goal or the reverse.

The game is started by a "kick-off" from the center of the field. A "kick-off" cannot score a goal.

After the "kick-off" the side that gets the ball must advance with it five yards in four attempts or "downs." If it fails the ball goes to the other side on "downs."

After a "goal" the ball is "kicked off" from the center of the field.

A "goal" is made by kicking the ball in any way except by a punt between the goal posts and over the crossbar.

A "drop kick" is made by letting the ball fall from the hands and kicking it the instant it rises from the ground.

A "place kick" is made by kicking the ball after it has been placed upon the ground.

A "punt" is made by letting the ball drop from the hands and kicking it before it touches the ground.

A "touchdown" is made when the ball is carried or kicked across the goal line and there held.

A "safety" is made when a player guarding his goal receives the ball from a player of his own side and touches it to the ground.

A "touchback" is where a player receives the ball and touches it down behind the goal line, the impetus to the ball coming from an opponent.

The ball goes "out of bounds" when it crosses the side lines.

A "scrimmage" takes place when the holder of the ball places it upon the ground and puts it in play by kicking it forward or snapping it back.

A "fair catch" is made direct from a kick made by an opponent.

"Off-side" play is made when a player is in his opponents' territory when the ball is put in play.

A touchdown counts four points, a goal from a touchdown counts two points, a goal from the field counts five points.

Wedding Presents.

We are now on the threshold of the great wedding season. It is now that almost daily our attention is called by a dainty invitation to the fact that some of our friends are to be married. Each invitation means a present. Have you put your thoughts on the subject? If not, follow us a few minutes. There are in our store hundreds of articles absolutely correct for wedding presents and with prices ranging from one dollar or so up to hundreds of dollars. As thought directs us let us suggest

Watches, Silverware, Clocks, Onyx Tables, Lamps, Out Glass, Bricabrac, Carving Sets, Pearl Handle Knives, Silver Toilet Sets, Bronzes, Spoons, Forks, Berry Dishes, Game Sets, &c.

From the great assembly here of handsome articles, suitable for wedding presents, you'll be able to select just the article you have in mind.

BALLENGER, Jeweler.

and a safety counts two points against the side making it.

There are three officials—linesman, referee and umpire. The referee has charge of the ball and judges of its progress, the umpire has charge of the players, and the linesman marks the progress of the ball.

The game is divided into two halves of thirty-five minutes each, with ten minutes intermission.

November the 3d is but a few days ahead of us. The campaign at that time will be over, and the voting will begin. While the Republican ticket from top to bottom is a good one and we would be glad to see every candidate on it elected, we would be especially well pleased at the election of Miss Mary Chambers.

Miss Chambers is well qualified for the office of County Superintendent, both from training and inheritance. Her ancestors were educators, and teaching has been her vocation from early womanhood. Her interests at all times have been closely identified with those of our county schools.

With studious habits, love for her calling, and alertness, she has availed herself of the advantages the profession offered. No teacher, perhaps, has gathered more from contact with her fellow-teachers through the County Institutes than Miss Chambers, and no teacher attending these Institutes has been more uniformly esteemed for their devotion to the interests of our schools and the cause of education.

Thus, fitted by profession and trained to the needs of our schools, she would enter into the office of Superintendent with a full appreciation of its requirements and well equipped for its duties.

Every Republican voter in the county should vote for her; and every man in the county, whether he be Republican or Democrat, who wishes to assist a most worthy and competent lady, should vote for Miss Chambers.

Ten counties in our state have elected ladies to the position of County Superintendent, and I am told that their work has been generally more satisfactory in this office than that of the men.

The counties thus honoring their women are Bourbon, Christian, Crittenden, Franklin, Lincoln, Madison, Owensley, Spencer, Breathitt and Wayne.

Quite a number of other counties have lady candidates for this office, and doubtless many of them will be elected.

Gentlemen of Mason, let us keep pace with our sister counties in aiding and honoring our meritorious and public-spirited women. If any of you, for political reasons, feel that you cannot vote for Miss Chambers, you should be too chivalrous to vote against her.

The vote for her should lead the vote cast for any candidate on either ticket.

Those who believe chronic diarrhea to be incurable should read what Mr. P. E. Gisham of Gaars Mills, La., has to say on the subject, viz.: "I have been a sufferer from chronic diarrhea ever since the war and have tried all kinds of medicines for it. This medicine can always be depended upon for colic, cholera morbus, dysentery and diarrhea. It is pleasant to take and never fails to effect a cure. 25 and 50 cent sizes for sale by J. We haven't had such a response as last week's to an advertisement of Women's Coats in years. There has never been such values offered. We want to make the statement clear. Wraps have been offered as many dollars under full prices before—but it has been at the end of the season. Now the offer is of full assortments and coat wearing time hardly begun. A wrap is worth dollars more to the buyer in November than in January. At 65c. of beaver, cheviot and broadcloth, satin faced, Empire back, fur or braided trimmed. Others rich in their simplicity. At \$7.50 Cloth Jackets with Klondike sleeves and collar, very chic and stylish. Count others we haven't space to describe. Entirely new garments right from the manufacturer.

SWANSDOWN FLANNEL made to sell at 12 1/2c. A price drop makes them and they'll be 5c. until this lot is gone—this week, next week, barely possible enough to keep us selling still longer. Saxony Flannellette at 5c.—stripes and plaids, twenty color plays, the rightest of right stuffs for wrappers.

Ballot Sixth Ward City of Maysville—Election Tuesday, November 2, 1897

SURELY you remember the little primer you used at school, and how fondly you gazed upon its pretty pictures—
Don't you?
Well, what appears below is not a

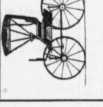

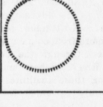

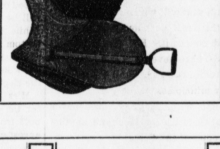

reproduction of that little book, though it may remind you of it.
On the contrary, it is the ballot for the Sixth Ward of the city of Maysville, to be voted on Tuesday next, and the remaining five Wards each have one

like unto it, saving in the candidates for Councilmen.
You may say that this ballot is quite a large affair; but what is here shown isn't all of it—it lacks two "stubs" which make the aggregate size of the

"official" ballot 19x304 inches. Then the county ballot is almost as large, being 14x25 inches, and it will appear in this space tomorrow.
When you talk of printing ballots, the job this year was a big one all the

way through—and it is but truth when it is said that there isn't an office in Maysville other than The Ledger Printery that has a Job Press large enough to do the work.
And here's a conundrum for some

mathematicians: If the county was charged \$257.56 for six books 18x17 inches, and SIXTEEN BOOKS about 9x9 inches in 1893, how much should it be charged for TWENTY-TWO BOOKS 14x25 inches in 1897?

YELLOW FEVER.

Sixty-Five New Cases Reported at New Orleans Thursday.

The Unfavorable Weather Militates Against the Patients.

Everything being done to isolate the cases, the yellow fever spreading among the city is not regarded as alarming. In the matter of fatalities the unfavorable weather militates against the patients, though in comparison with the cases under treatment, the death rate is not considered excessive. The patients received Thursday morning at the hospital indicated that the situation was improving somewhat, but it appears that the weather would be a record-breaker in the matter of new cases. There was a full recovery, and the situation remained unchanged.

Everything is being done to isolate the cases. It is noticed that the disease has been spreading rapidly among whose ages range from 4 to 14 years. The board of health officials are having more work, and the patients are being isolated as rapidly as is desired.

The board of health officials report: Cases of yellow fever Thursday, 63; deaths, Thursday, 8; total cases of fever to date, 1,081; total deaths, 150; yellow fever to date, 154; total cases of cases absolutely recovered, 983; total cases under treatment, 539.

NEW ORLEANS, Oct. 29.—Eight new cases and two deaths Thursday's yellow fever record in this city. New Cases.—Eight new cases, Mrs. W. J. Bishop, — Smith, ten years old; Edward Garrard, C. H. Jordan, Jennie Parsons, Fannie Herron, R. W. Shearer.

WANTS A DIVORCE

Because Her Husband Won't Wash

St. Louis, Oct. 29.—Julia B. Morgan seeks a divorce from her husband, Frank, to whom she was married at Newton, Ill., August, 1891. She says her husband has a violent and quarrelsome disposition and adds:

"The defendant persistently refused to bathe, and when his feet and body were soiled with offensive odors and the plaintiff would remonstrate, he would tauntingly say: 'Go and get some one else to live with.'"

She stood it until January 11, 1897, when she went to her mother and her husband left the city, from which he has since absconded himself.

FIRST MARRIAGE

In Seven Years in a Georgia Town—Hence, Closed and the Groom Nominated for Mayor.

MACON, Ga., Oct. 29.—Although the town of Ft. Gaines, Ga., has a population of 2,500, the first marriage to occur in that municipality within the past seven years has just been celebrated.

To show their appreciation of the great event every business in the town closed its doors for the entire day, all of the church bells rang merrily, and the whole town and suburbs took on a holiday aspect.

After the ceremony a mass meeting was held, and the groom, Mr. Joseph Collier, a lawyer, respected and popular young man at Ft. Gaines, was nominated for mayor of the town, and he will have no opposition at the coming election.

The bride was Miss Pearl Brown, one of the most attractive young ladies in Ft. Gaines. When it became known that the young people were engaged and intended to marry the whole town was agog, as it had been long expected that a marriage ceremony would be performed in the place that nearly everybody had forgotten all about it.

After the ceremony the bride and groom were invited, and everybody who could crowd into the church where the ceremony was performed was present of some kind, and as the community is a very wealthy one, many of the presents were handsome and costly.

THE GRAND JURY

Returns True Bills Against Sheriff Martin and His Deputies.

WILKESBARRE, Pa., Oct. 29.—The grand jury today returned true bills against Sheriff Martin and his deputies for the Lattimer shooting.

The true bills included 19 for murder, 19 for manslaughter, and one for the victims considered collectively. Thirty-six true bills were found in each of these categories, and one for the defendant against the same defendants. The fact that true bills have been found occasions no surprise as this action was expected, and the jury had ignored the bills of defense were have been at once returned.

Of course, the grand jury expected that Sheriff Martin and his deputies will elect to be tried together. The reentry of Garman and McAdams, who with one of the grand jury, indicates that the prosecution will be pushed with vigor and speedily.

The Barnes girl, who was the aggressor, closed the door on her antagonist, and laughed as her agonizing cries pierced the air. Miss Thomas was burned to a crisp before the rescue came. The murder is in hiding.

Sixty-Eight Thousand Persons Perish in Cuba.

This in Eight of the Principal Towns of the Islands in Two Months.

This Does Not Include the Factious Deliberately Starved to Death by the Spanish Colonies, Nor the Many Orphaned Starved by Gen. Weyler.

HAVANA, Oct. 29.—The Diario de la Marina recently published this appeal to public charity:

"We have seen this morning the terrible spectacle at Los Pinos, in the very center of Havana, of hundreds of helpless children dying of hunger among their starving parents. We appeal to public charity in their behalf. The sight of those dying children stretching their tiny hands to heaven, praying for a morsel of bread, is the most tragic sight the human eye can endure."

The situation is the same all over the island. It is proved by the reports of the sanitary authorities in all the towns and cities of Cuba. Here is a paragraph from El Tiempo of San Juan, P. R., dated Oct. 29:

"According to the official report, up to September 30, 4,076 persons have died of hunger in this city. The total number of persons who during the last two months have died of hunger in the city of Pinar del Rio, Havana, Matanzas, Santa Clara, Villa Clara, Manzanillo, Holguin and Santiago de Cuba is 68,500."

This figure is reached by adding together the number of cases of death by starvation officially reported in each of these cities.

Of course, the figures do not include the pacifics deliberately starved to death by the Spanish colonies, nor the many orphaned starved by Gen. Weyler.

The smallest estimate of pacifics murdered by the Spanish colonies is 300,000. The smallest estimate of the population of Cuba, which before the war was 1,500,000 inhabitants, is now less than 800,000. The other 500,000 have disappeared, having been killed in battles, emigrated or died of disease and fatigue. There is no exaggeration in these statements.
